I am an artist and sculptor. I make many kinds of sculptural objects that span the realms of fine art, design and the decorative/applied arts. Each of these fields are imbued with what I know of the 3<sup>rd</sup> dimension and beyond, and each retains their portion of reality. Coming from the classical world, I use the figurative in everything I make- the dynamics, the rhythms, depth of field, nuances, discipline- the abstractions. I draw from life as well as compose. My works are on paper, with metal, include wood & lighting. I work for the trade, sell to private clients and through galleries.

## SELECTED SOLO EXHIBITIONS

2018 Oct/Nov *Drawing with Metal*, Denise Bibro Fine Art, Chelsea, NY
